Summary

UI/UX Designer with **3+ years of professional experience** designing user-centric digital products across web platforms and SaaS solutions. Demonstrated ability to translate business requirements into intuitive, scalable, and visually refined user experiences.

Experienced in collaborating with cross-functional teams, conducting UX research, and delivering high-quality design solutions that support measurable business outcomes. Strong attention to usability, accessibility, and consistency through structured design systems.

Education

Patuakhali Govt. College   Session: 2021-2022

BA (Hon's) Department of English Language & Literature

Experience

UI/UX Designer • Feb, 2025 - Present

MNTech Digital

- Delivered UX and UI solutions for 50+ client projects across SaaS, eCommerce, and enterprise platforms.
- Led design processes from discovery to final handoff, ensuring adherence to usability standards.
- Designed and optimized digital experiences to support business growth and reseller onboarding.
- Conducted user research and usability testing to validate design decisions and enhance user satisfaction.
- Developed wireframes, user flows, and high-fidelity prototypes aligned with brand and business objectives.
- Collaborated closely with development teams to ensure accurate design implementation.

Freelance UI/UX Designer • 2022 - 2024

Fiverr

- Delivered end-to-end UI/UX design solutions for international clients across SaaS, web applications, and marketing platforms.
- Collaborated directly with clients to gather requirements, define scope, and translate business goals into user-centered designs.
- Designed user flows, wireframes, and high-fidelity interfaces tailored to diverse industries and user needs.
- Maintained clear documentation and design handoffs to ensure smooth developer implementation.
- Managed multiple projects simultaneously while meeting deadlines and quality standards.
- Ensured responsive and cross-platform compatibility for all deliverables.
- Communicated progress, timelines, and design rationale in a professional, client-facing manner.
- Built long-term client relationships through consistent quality and reliable delivery.

Freelance UI/UX Designer • 2023 - 2024

Upwork

- Delivered comprehensive UI/UX design solutions for global clients, spanning SaaS products, web apps, and marketing platforms.
- Partnered closely with clients to understand requirements, define project scope, and align designs with business objectives.
- Created intuitive user flows, wireframes, and high-fidelity interfaces customized for varied industries and audiences.
- Produced clear documentation and design handoffs to ensure seamless collaboration with development teams.
- Successfully managed multiple projects simultaneously, consistently meeting deadlines and maintaining high-quality standards.
- Ensured all designs were fully responsive and optimized for cross-platform performance.
- Provided transparent updates, timelines, and design rationale in client-facing communications.
- Fostered long-term client relationships through dependable delivery and exceptional design quality.
